

ANATOMICAL MODELS AN EXHIBITION

16 – 18 SEPT 2019, 5–7 PM

DEPARTMENT OF PHYSIOLOGY, DEVELOPMENT AND
NEUROSCIENCE, ANATOMY BUILDING, DOWNING SITE

What is an anatomical model, and how
do you make one?

Learn how it can be used for teaching,
research and much more!

At 5:30PM each day there will be brief talks (30
min) in the Anatomy Lecture Theatre with our
academics .

*16 Sept - From Wax to Virtual: a Brief History
of Anatomical Models - Dr Cecilia Brassett*

*17 Sept – Teaching Veterinary Anatomy
with Models - Dr David Bainbridge*

*18 Sept – How to Model our Supercomputer:
the Human Brain - Dr Sue Jones*

**You will not look at your own body in
the same way again!**

Recommended Age 14+.
Visitor's discretion advised.

*Exhibition developed by
David Bainbridge, Cecilia Brassett,
Roberto Inchingolo, Sue Jones
Sponsored by*
