1. Sage, S.O. & Rink, T.J. (1985). Inhibition by forskolin of cytosolic calcium rise, shape change and aggregation in quin2-loaded human platelets. *FEBS Letters* **188**, 135-140.
2. Sage, S.O. & Rink, T.J. (1986). Kinetic differences between thrombin-induced and ADP-induced calcium influx and release from internal stores in fura-2-loaded human platelets. *Biochemical and Biophysical Research Communications* **136**, 1124-1129.
3. Sage, S.O. & Rink, T.J. (1986). Effects of ionic substitution on  $[Ca^{2+}]_i$ -rises evoked by thrombin and PAF in human platelets. *European Journal of Pharmacology* **128**, 99-107.
4. Pollock, W.K., Sage, S.O. & Rink, T.J. (1987). Stimulation of  $Ca^{2+}$  efflux from fura-2-loaded platelets activated by thrombin or phorbol myristate acetate. *FEBS Letters* **210**, 132-136.
5. Rink, T.J. & Sage, S.O. (1987). Stimulated calcium efflux from fura-2-loaded human platelets. *Journal of Physiology* **393**, 513-524.
6. Sage, S.O. & Rink, T.J. (1987). The kinetics of changes in intracellular calcium concentration in fura-2-loaded human platelets. *Journal of Biological Chemistry* **262**, 16364-16369.
7. Sage, S.O., Adams, D.J. & van Breemen, C. (1989). Synchronised oscillations in cytosolic free calcium concentration in bovine pulmonary artery endothelial cell monolayers. *Journal of Biological Chemistry* **264**, 6-9.
8. Sage, S.O., Merritt, J.E., Hallam, T.J. & Rink, T.J. (1989). Receptor-mediated calcium entry in fura-2-loaded human platelets stimulated with ADP and thrombin: dual wavelength studies with  $Mn^{2+}$ . *Biochemical Journal* **258**, 923-926.
9. Cannell, M.B. & Sage, S.O. (1989). Simultaneous measurement of cytosolic calcium and membrane currents in single bovine pulmonary artery endothelial cells. *Journal of Physiology* **419**, 555-568.
10. Sage, S.O. & Rink, T.J. (1990). Rapid blood platelet activation: Continuous- and quenched-flow versus stopped-flow approaches. *Biochemical Journal* **265**, 306-307.
11. Sage, S.O., Reast, R. & Rink, T.J. (1990). ADP evokes biphasic  $Ca^{2+}$  influx in human platelets: evidence for a store-regulated route of  $Ca^{2+}$  entry. *Biochemical Journal* **265**, 675-680.
12. Sage, S.O., Jobson, T.M. & Rink, T.J. (1990). Agonist-evoked changes in cytosolic pH and calcium concentration in human platelets: studies in physiological bicarbonate. *Journal of Physiology* **420**, 31-45.
13. Sage, S.O., Pintado, E., Mahaut-Smith, M.P. & Merritt, J.E. (1990). Rapid kinetics of agonist-evoked changes in cytosolic free calcium in fura-2-loaded human neutrophils. *Biochemical Journal* **265**, 915-918.
14. Mahaut-Smith, M.P., Sage, S.O. & Rink, T.J. (1990). Single channels in intact human platelets evoked by ADP. *Journal of Biological Chemistry* **265**, 10479-10483.

15. Mahaut-Smith, M.P., Rink, T.J., Collins, S.C. & Sage, S.O. (1990). Voltage-gated potassium channels and the control of membrane potential in human platelets. *Journal of Physiology* **428**, 723-735.
16. Sage, S.O., van Breemen, C. & Cannell, M.B. (1991). Sodium-calcium exchange in endothelial cells from bovine pulmonary artery. *Journal of Physiology* **440**, 569-580.
17. Sage, S.O., Rink, T.J. & Mahaut-Smith, M.P. (1991). Resting and ADP-evoked changes in cytosolic free sodium concentration in human platelets loaded with the indicator, SBFI. *Journal of Physiology* **441**, 559-574.
18. Vindlacheruvu, R.R., Rink, T.J. and Sage, S.O. (1991). Lack of evidence for a role for the lipoxygenase pathway in increases in cytosolic calcium evoked by ADP and arachidonic acid in human platelets. *FEBS Letters* **292**, 196-200.
19. Geiger, G., Nolte, C., Butt, E., Sage, S.O. & Walter, U. (1992). Role of cGMP and cGMP-dependent protein kinase in nitrovasodilator inhibition of agonist-evoked calcium elevation in human platelets. *Proceedings of the National Academy of Sciences, U.S.A.* **89**, 1031-1035.
20. Sage, S.O. & Heemskerk, J.W.M. (1992). Thromboxane receptor stimulation inhibits adenylate cyclase and reduces cyclic AMP-mediated inhibition of ADP-evoked responses in fura-2-loaded human platelets. *FEBS Letters* **298**, 199-202.
21. Heemskerk, J.W.M., Hoyland, J., Mason, W.T. & Sage, S.O. (1992). Oscillations in cytosolic calcium concentration in single, fibrinogen bound, fura-2-loaded human platelets. *Biochemical Journal* **283**, 379-383.
22. Mahaut-Smith, M.P., Sage, S.O. & Rink, T.J. (1992). Rapid ADP-evoked currents in human platelets recorded with the nystatin permeabilised patch technique. *Journal of Biological Chemistry* **267**, 3060-3065.
23. Sage, S.O., Sargeant, P., Merritt, J.E., Mahaut-Smith, M.P. & Rink, T.J. (1992). Agonist-evoked  $\text{Ca}^{2+}$  entry in human platelets. *Biochemical Journal* **285**, 341-343.
24. Sargeant, P., Clarkson, W.D., Sage, S.O. & Heemskerk, J.W.M. (1992). Calcium influx evoked by store depletion in human platelets is more susceptible to cytochrome P-450 inhibitors than receptor-mediated calcium entry. *Cell Calcium* **13**, 565-576.
25. Sargeant, P., Farndale, R.W. & Sage, S.O. (1993). The tyrosine kinase inhibitors methyl 2,5-dihydroxycinnamate and genistein reduce thrombin-evoked tyrosine phosphorylation and  $\text{Ca}^{2+}$  entry in human platelets. *FEBS Letters* **315**, 242-246.
26. Marchenko, S.M. & Sage, S.O. (1993). Electrical properties of resting and acetylcholine-stimulated endothelium in intact rat aorta. *Journal of Physiology* **462**, 735-751.
27. Poole, A.W., Heath, M.F., Sage, S.O. & Evans, R.J. (1993). A method for loading equine platelets with the fluorescent calcium indicator fura-2. *Equine Veterinary Journal* **25**, 45-48.
28. Heemskerk, J.W.M., Vis, P., Feijge, M.A.H., Hoyland, J., Mason, W.T. & Sage, S.O. (1993). Roles of phospholipase C and  $\text{Ca}^{2+}$ -ATPase in calcium responses of single, fibrinogen-bound platelets. *Journal of Biological Chemistry* **268**, 356-363.
29. Heemskerk, J.W.M., Feije, M.A.H., Andree, H.A.M. & Sage, S.O. (1993). Function of intracellular  $[\text{Ca}^{2+}]_i$  in exocytosis and transbilayer movement in human platelets surface-labelled with the fluorescent probe 1-[4-(trimethylammonio)]-6-phenyl-1,3,5-hexatriene. *Biochimica et Biophysica Acta* **1147**, 194-204.

30. Sargeant, P., Farndale, R.W. & Sage, S.O. (1993). ADP- and thapsigargin-evoked  $\text{Ca}^{2+}$  entry and protein tyrosine phosphorylation is inhibited by the tyrosine kinase inhibitors genistein and methyl 2,5-dihydroxycinnamate in fura-2-loaded human platelets. *Journal of Biological Chemistry* **268**, 18151-18156.
31. Sargeant, P., Farndale, R.W. & Sage, S.O. (1994). Calcium store depletion in dimethyl BAPTA-loaded human platelets increases protein tyrosine phosphorylation in the absence of a rise in cytosolic calcium. *Experimental Physiology* **79**, 269-272.
32. Davis, W., Sage, S.O. & Allen, J.M. (1994). Cytosolic calcium elevation in response to Fc receptor cross-linking in undifferentiated and differentiated U937 cells. *Cell Calcium* **16**, 29-36.
33. Marchenko, S.M. & Sage, S.O. (1994). Mechanism of acetylcholine action on membrane potential of the endothelium of intact rat aorta. *American Journal of Physiology* **266**, H2388-H2395.
34. Marchenko, S.M. & Sage, S.O. (1994). Smooth muscle cells affect endothelial membrane potential in rat aorta. *American Journal of Physiology* **267**, H804-H811.
35. Ahmed, A., Sage, S.O., Plevin, R., Shoaibi, M.A., Sharkey, A.M. and Smith, S.K. (1994). Functional platelet-activating factor receptors linked to inositol lipid hydrolysis, calcium mobilisation and tyrosine kinase activity in human endometrial HEC-1B cell line. *Journal of Reproduction and Fertility* **101**, 459-466.
36. Heemskerk, J.W.M., Feijge, M.A.H., Sage, S.O. & Walter, U. (1994). Indirect regulation of  $\text{Ca}^{2+}$  entry by cAMP- and cGMP-dependent protein kinases and phospholipase C in rat platelets. *European Journal of Biochemistry* **223**, 543-551.
37. Sargeant, P., Farndale, R.W. & Sage, S.O. (1994). The imadazole antimycotics econazole and miconazole reduce agonist-evoked protein-tyrosine phosphorylation and evoke membrane depolarisation in human platelets: Cautions for their use in studying  $\text{Ca}^{2+}$  signalling pathways. *Cell Calcium* **16**, 413-418.
38. Hargreaves, P.G., Licking, E.F., Sargeant, P., Sage, S.O., Barnes, M.J. & Farndale, R.W. (1994). The tyrosine kinase inhibitors, genistein and methyl 2,5-dihydroxycinnamate, inhibit the release of [ $^3\text{H}$ ]arachidonate from human platelets stimulated by thrombin and collagen. *Thrombosis and Haemostasis* **72**, 634-642.
39. Jenner, S., Farndale, R.W. & Sage, S.O. (1994). Effects of  $\text{Ca}^{2+}$  store depletion and refilling with  $\text{Ca}^{2+}$ ,  $\text{Sr}^{2+}$  or  $\text{Ba}^{2+}$  on tyrosine phosphorylation and  $\text{Mn}^{2+}$  entry in human platelets. *Biochemical Journal* **303**, 337-339.
40. Davis, W., Halliwell, E.L., Sage, S.O. & Allen, J.M. (1995). Increased capacity for store-regulated calcium influx in U937 cells differentiated by treatment with dibutyryl cyclic AMP. *Cell Calcium* **17**, 345-353.
41. Usachev, Y.M., Marchenko, S.M. & Sage, S.O. (1995). Cytosolic calcium in resting and stimulated endothelium of excised intact rat aorta. *Journal of Physiology* **489**, 309-317.
